PRE-ANESTHESIA FORM

When you place your pet in our hands, you trust us to provide the best possible medical care. That is why we may recommend certain tests to determine your pet's health status, so that we can make the best medical decisions, especially before administering anesthesia. We have the latest technology available (**In-house Blood Testing, Computerized EKG & Laser Surgery**) to minimize risk to your pet and provide peace of mind.

BLOOD PROFILE

We strongly recommend that blood testing be performed to maximize patient safety and alert the Doctor to any pre-existing internal problem that may not be evident upon physical examination.
